

BOMEX 2017 – Education Series

Panelist

Alec Hay, Principal, Risk, Resilience & Security Planning, Southern Harbour, Member of Register of Security Engineers & Specialists, and Adjunct Professor, Centre for Resilience of Critical Infrastructure, University of Toronto

Alec is a principal in Risk, Resilience & Security Planning at Southern Harbour, based in Toronto. Previously the Resilience & Security leader at DIALOG, before which he served 25 years in the British Royal Engineers. He specialised over the last 20 years in fortifications and infrastructure development, which he practised around the World, from the High Arctic to South Atlantic, Europe to Central Asia and much in between.

Alec is an adjunct professor at the University of Toronto Centre for Resilience of Critical Infrastructure, where he focuses on operational resilience of communities and infrastructure systems. He is a director of Rethink Sustainability Initiative and the International Secretary of the Register of Security Engineers and Specialists.
