

BOMEX 2017 – Education Series

Panelist

Casey Witkowicz, Founder and CEO of RYCOM

Casey Witkowicz is the Founder and CEO of RYCOM. As the head of the management team, he focuses on creating & directing strategies and investments. In addition to more than 30 years of experience in the technology sector, Casey brings a substantial track record of entrepreneurial success in managing, acquiring and creating new agile and sustainable businesses. Over the last seventeen years, Casey and his executive team have navigated RYCOM from a technology centric supplier to a full service provider, helping clients in many markets integrate technology solutions into all aspects of operations. Today RYCOM serves a wide range of Canada's critical markets such as real-estate, government, media and finance. Casey is focused on providing turnkey operating platforms to many customers' business operations, automation, security, and revenue generating solutions. Prior to RYCOM, Casey held executive positions at Motorola, AT&T/Unitel, CP Rail and a small collection of start-ups. These positions were of increasing responsibility and scope, initially starting with service & product engineering. Casey then progressed to product marketing, sales and eventually to executive management, consisting of managing or starting new businesses. Casey's ability to visualize and operationalize the effects of technology drew the attention of many of his executive leadership, inviting him to participate and lead business transformation initiatives. This presented exceptional opportunity to put all the parts of a company under a microscope and repairing what is broken. Through these assignments Casey acquired top to bottom insight, allowing him to see the value of talented individuals as they contribute to the success of strategy implementation and maintaining promises made in business. Casey holds an undergraduate degree in Electrical Engineering from Ryerson Polytechnical University. He has also completed graduate studies in Business Administration.
