

BOMEX 2017 – Education Series

Panelist

Scott Beneteau, GM, Commercial Services, Enercare

Scott Beneteau is the General Manager of Enercare's Commercial HVAC division, providing hydronic and HVAC solutions to the commercial market. Previously, Scott was Vice-President of Sales with Enercare Connections, a leading provider of electricity, water, gas and thermal sub-metering services in the new construction and retrofit multi-residential market. Scott bring significant energy management and measurement experience to the commercial HVAC market and is working to develop innovate ways of managing Enercare's HVAC assets more effectively through the deployment of enablement technologies. Bringing such technologies and associated asset management strategies to assist Enercare's customer's reduce energy and maintenance costs is an integral component of his long-term vision for Enercare Commercial Services.
