## Coronavirus Webinar: Q & A with the Experts – Cyber Security and COVID-19

0.00 Webinar Begins

0.02 Benjamin introduces webinar & gives BOMA Canada updates

0.2.55 Benjamin introduces speakers:

- Nada Ebeid, Business Development Manager, Genetec.
- Casey Witkowicz, President & CEO, RYCOM.
- David Sulston, Director, Security, Oxford

0.5.30 Topic for Discussion: At a general, non-building level but just in society at large, what are the specific COVID-related cyber concerns?

0.11.37 Focusing on buildings, what challenges do “hibernating” buildings pose from a cyber perspective?

0.13.21 Are we embracing technologies too quickly? How should we approach such things from a risk management perspective?

0.19.40 What challenges may arise from undertaking things like temperature checks of people entering buildings?

0.26.55 Question: Temperature checking in multi-tenant buildings?

0.27.43 How can technology help provide real time data re Coronavirus, and what risks are there? What types of new technology do you think will come out of COVID-19?

0.35.05 From a cyber perspective, what does back-to-work look like? Are we entering a new era of cyber security?

0.37.26 Where would you rate the PM industry in terms of cyber maturity?

0.43.06 Is health and safety the next frontier for IOT? What risks might that raise?

0.45.19 Do you envision that strict Cybersecurity measures and plans will be required from Building Automation Security and Control Systems manufacturers moving forward?

0.49.01 Are there any risks from a cyber-security perspective on sensing technology that we should be concerned about?

0.54.33 If you could give one single cyber-security-related piece of advice to a property manager, what would it be?

0.57.00 Benjamin thanks speaker & gives final comments

0.57.08 Webinar ends
