

Where standing apart is the best way to stand together.

## BOMA Canada Webinar Timestamps - Back to Work: Sustainability During and Post COVID-19

0.00 – BOMA Canada Introduction

0.1.18 – Hazel Sutton introduces webinar topic

0.2.10 – Hazel introduces panelists: **Eric Chisolm**, Principal, Purpose Building; **Caroline Bordeaux**, Director, Sustainability, Impact & Engagement Practice, Canderel; **Alex Uy**, Property Manager, Cadillac Fairview

0.4.13 – What sustainability issues are top of mind for you as we talk about returning to work in buildings?

0.10.47 – What impacts have COVID-19 considerations had on building energy or water management strategies?

0.18.10 – What kind of trends do you expect to see around resource use as we slowly emerge out of COVID-19 restrictions?

0.24.54 – What impact do you think COVID-19 will have on building waste management processes?

0.29.14 – What kind of a role can tenants play in helping building management reach its waste reduction objectives?

0.33.10 – What opportunities does this experience hold for you and your organization in terms of redefining new priorities?

0.41.30 – What are the areas that you would like to see supported by spending opportunities from government stimulus packages?

### **0.44.36 – Q & A begins**

0.44.48 – In regards to ASHRAE recommendations for HVAC, was the focus on 24/7 HVAC or 24/7 fresh air?

0.46.08 – Reducing commuting-related travel: have you given thought to implementing policies to reduce commuting for carbon reduction objectives, given that some buildings may have a lower occupancy?

0.50.21 – Given that we will be moving into a world of disposables, are there any recommendations available for more environmentally friendly disposables i.e. masks, wipes?

0.55.26 – Percentages mentioned by Eric (30% and 70% following all guidelines) is that specific to HVAC energy consumption or the whole building?

0.55.50 – How do you think waste audits can be conducted safely in office buildings?

0.58.04 – Encouraging bike commuting: Thoughts or ideas around safe shower use?

0.58.50 – Final thoughts from panelists
